

Remarks/Arguments

Claims 2-19, 21, 24, 26-28, 30, 32-43 and 45 are in the case. New claim 45 is added.

Seeing as the effect of the instant amendment is limited to adding a new dependent claim 45, which corresponds exactly to previously objected to claim 22, Applicant respectfully submits that entry of the amendment is appropriate under 37 CFR 1.111(a)(2). In particular, claim 22 was inadvertently cancelled by the first reply to the office action mailed July 27, 2004, despite the fact that the Examiner had indicated the allowability of claim 22 at page 4 of the Office Action. Applicant merely wishes to reintroduce originally filed claim 22 into the application as new claim 45. New claim 45 depends from believed allowable claim 21, and accordingly applicant believes that claim 45 is in proper condition for allowance. No new matter has been added.
